

NOBAMED Paul Danz AG

NOBAPROTECT®

REF 672072 FFP2 NR with valve

Product Description and Purpose

NOBAPROTECT® is a latex-free FFP-respirator mask with valve. The mask protects the user against solid and non-vaporizable liquid particles. It reduces the chance for the user to get in contact with microorganisms, blood and body liquids contained in the air.

NOBAPROTECT® is available in two protection levels: FFP2 with min. 94% of aerosol retention.

The vent, facilitates the exhalation. The mask is for one shift only.

To select the adequate mask, please respect the relevant current directives and the state of the art.

Composition

Polypropylene, Terylene® (polyester fibres), polyethylene, EVA-foam, rubber (latex-free) and silicone rubber

Normative and Legal Requirements

NOBA-PROTECT® meets the demands of **EN 149:2001+A1:2009** "*Respiratory protective devices - Filtering half masks for protection against particles* " (PPE CAT III).

The product does not contain dangerous toxic substances according to REACH.

It has CE marking and DIN EN ISO 15223-1– labels on all its packaging.

Packaging

Primary packaging: foil packaging

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

Storage

To be stored in a dry (less than 80 % humidity) and dust-free environment; temperature must not exceed +70° C or fall below – 30° C

CE 0194

PSA CAT III
